

STATISTICAL SUMMARY
Visitors to Manitoba
U.S. Border Crossings
and Overseas Direct Entries

Michael Bell

Development and Tourism
April, 1985

I. INTRODUCTION

The purpose of this report is to present Statistics Canada data for the 1984 calendar year measuring non-resident travel entries into Manitoba from the United States and direct from overseas countries.

The information pertains to the volume of tourist movements between:

1. The United States and Manitoba, and
2. The rest of the world and Manitoba.

Interprovincial movements of traffic either Canadian or American are not included in this report.

II. UNITED STATES VISITOR ENTRIES

American visitors entering Manitoba by automobile from the United States totalled 535,907 persons in 1984. This is a decline of 3.9% from 1983. (Table 8A)

Visitors entering the province by automobile and staying one or more nights decreased to 237,243 in 1984 from 240,356 in 1983; this represents a 1.3% decline in visitors. (Table 2)

Visitors who entered the province and departed the same day declined 5.9% from 1983 to 298,564 persons in 1984. (Table 2)

The overall decline in vehicle traffic was 3.6%. (Table 1)

American resident entries by air increased once more. In 1984 this number was 59,597, an increase of 8.6% over 1983. (Table 2)

Travel by bus in 1984 increased from 24,390 to 27,602. (Table 2)

Both same day and overnight traffic to Manitoba declined from 1983. Corresponding to this, the number of automobile travellers decreased for same day travel by 5.9%, an 18,730 person decline. For overnight travellers the decrease was 3,113 persons or 1.3%.

The overall total number of visitor entries from the United States to Manitoba declined 2.1% from 639,455 persons to 625,998 persons. (Table 2)

III. OVERSEAS TRAVELLER ENTRIES

Overseas visitors via air direct to Manitoba and by air and land via the United States increased in 1984 by 12.5% to 15,032 visitors. (Table 7)

IV. CANADIAN TRAVELLERS RETURNING TO MANITOBA

A. From Visits to the United States:

The number of Canadians returning from visits to the United States decreased dramatically by 90,707 people to 1,014,252 in 1984. This is a 8.2% decline from 1983.

Travel by automobile on a one or more night basis decreased to 344,133 people. This was a substantial decrease from the year previous, 1983, by 19%. In 1983, the increase in travellers on a one or more night basis was by 23.6%. (Table 5)

Travel by bus decreased in 1984 by 2.1% to 45,429. (Table 5)

B. From Visits Overseas:

Canadians returning directly to Manitoba or returning via the United States from visits overseas increased 15% to 24,293 in 1984. (Table 6)

This measure represents only a minor segment of the total overseas travel by Manitobans since most travellers re-enter Canada at other ports of entry, i.e. Montreal and Toronto.

V. CONCLUSIONS

In 1984, American residents entering Manitoba from the United States, by all modes of transport, declined 2.2%. (Table 8A)

The majority of this decline is to be explained by the decline in same day automobile traffic.

Travel by residents of countries other than the United States to Manitoba, either direct or via the United States, indicated an increase of 12.5% to 15,032 visitors. (Table 7)

In general, visitors from the United States remained in decline. Whereas most the decline in 1983 was attributed to a decrease in long term automobile traffic, in 1984, most of the decline was due to a fall in same day automobile traffic. Both air and bus traffic increased in 1984 from the United States. There was also an increase of American residents for the year with respect to residents entering by other modes.
